ABOUT CHINA ADVOCATES

Over the last three decades China Advocates has emerged as the leading American company creating deluxe and unique China travel experiences. Our custom itineraries focus on art, culture, history, modern life, wellness, and eco-tourism. We do not strive to be the biggest luxury travel organization, but we do work hard at being the best.

China Advocates has focused on China tour operations for 28 years. We have an office in San Francisco and a “sister” branch in Beijing as well. This company has been a labor of love for owners Charlotte Xu and the late Howard Dewar, who spent months in China each year refining our product and operations. They personally trained and groomed our staff in China to ensure that we offer unparalleled service and the best tour directors and local guides. We also offer select tours to Myanmar (Burma), Japan and the Big Island of Hawaii.

We focus on high-end travel with special access to the local culture. We envision travel as a transformative experience far beyond the scope of standard touring. Over the years we have worked with alumni associations and museums to create custom itineraries for their member and donor groups: Harvard Alumni Association, UC Berkeley Alumni Association, and the Association of Yale Alumni are just a few of our esteemed clients.

China Advocates has recently begun to offer our unique style of travel to small groups, families and individuals. We now work directly with luxury travel agents and independent travelers, and we have found this to be a natural fit for both sides. We offer a catalog with tour itineraries; and we are happy to collaborate with you to design a travel experience around your specific interests. We can also assist you to create shorter, regionally-focused excursions and add-ons if that best suits your needs.
